Life-long learning:

*"A person who doesn't continue to learn is no better off
than a person who cannot learn.*

Ignorance is never better than knowledge."

Richard Feynman

"You cannot teach a man anything; you can only help him to find it within himself."
Galileo Galilei, 1564-1642

"Effective professional development respects and nurtures the capacity of teachers; is planned collaboratively with teachers; develops content and pedagogy; enhances leadership; is long-term, sustained, and of high intensity; and is evaluated on the basis of its impact on teachers and students."

Excerpts from *Principles for Professional Development*, U.S. Department of Education
